

Get the relief support your plant needs

From brief to deployment - what it takes to get an operator on your site

1

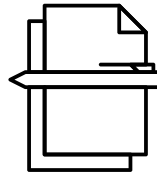

SHARE YOUR BRIEF

Tell us about your site, what skills you need, for how long, and the roster they'll work. This only takes a few moments!

2

RECEIVE OUR PROPOSAL & APPROVE

Based on your brief, we'll send a proposal in a day or two. We don't reserve operators, so we'll need your purchase order to move forward.

3

WE'LL FIND THE RIGHT OPERATOR

We'll typically spend anywhere from a day to a week finding the right operator from our pool to meet your brief

4

WE'LL GET THEM READY TO GO

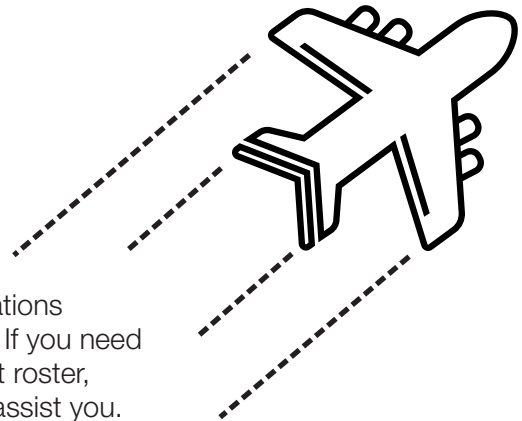

We'll take a day or two to brief your selected operator, gear them up with PPE and make sure they know all they need to know about your site.

5

RELIEF IS ON IT'S WAY TO YOU!

Off to site! Our Plant Operations Manager will stay in touch. If you need to make a change (different roster, longer duration), they can assist you.

Need expert backup for your water/wastewater treatment plant and network team?

Skilled, qualified and experienced operators backed by our process engineers, scientists and technical experts.

Anytime, anywhere, any duration.

■ Maternity leave ■ School holidays ■ Extended sick leave ■ Long service leave ■ Staff departures
