Site & Safety Assessment Checklist POMS Self-Check for WTP	unobstructed □ Lock-out/tag-out procedures followed during maintenance □ No exposed wiring or damaged cables □ Motor and pump guards installed and intact □ Generators tested and maintained □ Ladders, tools, and equipment stored correctly
Personnel Safety ☐ PPE available and in use ☐ First aid kits fully stocked and accessible ☐ Safety showers and eyewash stations functional and unobstructed ☐ Staff trained in emergency procedures ☐ Incident reporting system in place and used ☐ Noise levels within safe exposure limits ☐ Safe access to elevated areas ☐ Signage on confined space hazards displayed	Fire Safety ☐ Fire extinguishers present, serviced, and accessible ☐ Fire alarms and detectors functional ☐ Flammable materials stored correctly ☐ Emergency evacuation maps displayed
General Site Conditions ☐ Site perimeter fencing intact and secure ☐ Entry/exit gates functional and lockable ☐ Site signage in place (hazard, emergency, restricted access) ☐ Roads and pathways clear and in good condition ☐ Emergency assembly points clearly marked ☐ Lighting adequate for operational and security needs ☐ Vegetation managed to reduce fire and pest risks	Environmental Protection ☐ Stormwater drains protected from contamination ☐ Bunds and sumps free from overflow ☐ Waste disposed of appropriately ☐ Odour controls in place and effective ☐ No evidence of spills or illegal discharge
Chemical and Hazardous Material Management Chemicals stored in bunded, ventilated, and clearly labelled areas SDS available for all chemicals on site Spill kits available and fully stocked Chemical containers undamaged and not leaking Emergency shut-off systems accessible and tested Chemical dosing systems maintained and enclosed where required	Documentation and Records ☐ Site safety induction completed ☐ Risk assessments and SWMS current ☐ Maintenance logs up to date ☐ Emergency contact lists posted Use the following 2 Checklists to assess your WTP. Return this assessment to S&B to get started on your Plant Operations & Maintenance Service package!

Electrical and Mechanical Safety

Plant Performance Checklist POMS Self-Check for WTP

Treatment Process Units
☐ Performance of each unit
☐ Clarity and flow levels
☐ Equipment integrity
☐ Chemical dosing system status
☐ Security
☐ Environmental compliance
Treatment Water Storage Tanks
☐ Current water level
☐ Tank condition
□ Security
☐ Cleanliness
☐ Clearilliless
Sludge Handling and Waste Systems
Sludge Handling and Waste Systems
☐ Dewatering systems
☐ Storage condition
☐ Disposal compliance
Site-Wide Checks
☐ Spill containment
☐ Access controls
□ Cianago

_			_				

☐ Review sampling and analysis data for compliance with standards

Equipment Performance

- ☐ Equipment failures in the past 6 months
- $\hfill\Box$ Urgent maintenance planned in the next 6 months
- ☐ Major maintenance planned for 6–12 months ahead

Compliance with EA/Health Conditions

☐ General

☐ Air

- ☐ Water source abstraction
- $\hfill\square$ Wastewater/sludge disposal
- ☐ Land application
- ☐ Noise
- ☐ Waste
- ☐ Monitoring and reporting

Raw Water Intake System

- ☐ Operational status
- ☐ Screen and intake condition
- ☐ Environmental compliance

- □ Signage
- □ Drainage
